EDUCATION

Northeastern University | Boston, MA

Candidate for Bachelor's of Science in Computer Science and Political Science

MAY 2021 - EXPECTED MAY 2025

Coursework has included the study of discrete mathematics, functional programming, object-oriented programming, and algorithms. Generally a 5-year program, completing in 4 due to around three semesters of college credit obtained in high school and two remote summer semesters at Northeastern while still a senior in high school.

Coursework: Accelerated Fundamentals of Computer Science 1 & 2, Object-Oriented Design, Discrete Structures, C++, Algorithms and Data, variety of other coursework in Computer Science, Political Science, History, and Philosophy

Activities: Former Student Government Senator representing Khoury College of Computer Sciences, Northeastern YDSA

Dutchess Community College | Poughkeepsie, NY

Supplemental Coursework

JANUARY 2020 - JUNE 2021

Took courses at a local community college introducing Java programming. Topics included object-oriented programming, recursion, I/O, sorting algorithms, data structures, and JavaFX.

Coursework: Introduction to Computer Science, Computer Science II

Arlington High School | Freedom Plains, NY

Regents Diploma with Advanced Designation

SEPTEMBER 2017 - JUNE 2021

Took advanced courses where possible, especially in science and engineering related disciplines. Also took a half-year course introducing C++.

Coursework: 3 honors, 7 APs, 1 self-studied AP, see supplemental coursework at other institutions.

Activities: Model UN Club, Debate Club, Political Forum Club, Chess Club, National Honor Society

Rochester Institute of Technology | Rochester, NY

Institutional Credit

JUNE 2018, JUNE 2020

Awarded college credit from RIT in the field of Engineering for high performance on Project Lead The Way exams. Topics included CAD and writing machine code in the G-code programming language.

Coursework: Introduction to Engineering and Design, Computer Integrated Manufacturing

WORK EXPERIENCE

finLawyer.com — Webmaster

JUNE 2018 - PRESENT

Webmaster for a WordPress-based site for a family member who is a sole practitioner in the space of securities law. Placed special emphasis on improving site performance, both in load time (removal and optimization of JavaScript, image compression) and search-engine optimization (SEO). Currently working on a revamped version of this site built from scratch in TypeScript that does not utilize WordPress.

Core skills: Web development, JavaScript, HTML, SEO, server security

Brye Andersen S.P. — Bicycle Courier

SEPTEMBER 2021 - PRESENT

Deliver items on a bicycle in the Greater Boston area. Mostly facilitated by the gig economy, apps like UberEats, DoorDash, and goPuff make up the majority of my business although I have been contracted in the past to deliver non-food such as documents, newspapers, packages, etc. As an independent contractor, I do my own taxes and have learned a lot about tracking business expenses and maintaining a strong balance sheet.

Core skills: Operating under pressure, situational awareness, working in hazardous weather/conditions, adapting to change, finding the most efficient way to reach a destination, coordinating with courier firms

VOLUNTEER AND LEADERSHIP POSITIONS

Model UN Club, Arlington High School — President

SEPTEMBER 2017 - JUNE 2021; PRESIDENT DECEMBER 2020 ONWARDS

Took leadership of a club of around three dozen students with a new faculty advisor during remote-only instruction. Trained students in procedure while enhancing their knowledge of foreign relations and secured attendance to Georgetown University's virtual Model UN conference. Also led my school's Academic WorldQuest team to victory in Regionals and placed well at the World Affairs Council of America's National Competition. Organized numerous events, including personally hosting a trivia competition which raised hundreds of dollars to lower the financial burden of attending MUN conferences that attracted around 70 people.

Debate Club, Arlington High School — President

OCTOBER 2018 - JUNE 2021; PRESIDENT OCTOBER 2020 ONWARDS

Helped organize remote "scrimmages" between our club and other local high schools. This club also had a new advisor and I was elected by members unanimously. Trained two dozen members in public speaking

skills and hosted weekly practice debates.

Political Forum Club, Arlington High School — *Vice President*

NOVEMBER 2017 - JUNE 2021; PRESIDENT NOVEMBER 2019 ONWARDS

Helped moderate an open discussion between students at our high school biweekly. Also prepared background material and questions to enhance peer discussion of current events and political literacy. One of the events organized was a town hall with our Congressman.

Crimson Book Club, Online — *Lead Organizer*

JUNE 2020 - SEPTEMBER 2020

In the wake of COVID-19, founded and organized a weekly political book club with members in four states and three countries. In addition to organizing votes on our next reading, also recorded and edited our discussion of the material to be viewed by members unable to be present that day.

Chess Club, Arlington High School — *Co-President*

NOVEMBER 2018 - JUNE 2019

Co-founded a club that played casual chess in the school library. We were unable to find an advisor, but fortunately I was able to convince our school librarian to allow us to use a side classroom of the library for meetings and to write us passes for the bus home.

Political Organizing, Various Organizations

SEPTEMBER 2018 - PRESENT

Volunteered for numerous campaigns, including Antonio Delgado's congressional run in 2018, Bernie Sanders' presidential run in 2020, and several city council and mayoral campaigns in Greater Boston, NYC, and Upstate NY. With the exception of early in the COVID-19 pandemic, the majority of this work has been tabling, in-person canvassing and door-to-door campaigning. This is what I spend a large amount of my free-time doing.
